New York's Leading Association of Union Subcontractors

Explore the Benefits Today

MEMBERSHIP IN STA

Being a part of Subcontractors Trade Association of New York City (STA) brings countless advantages to New York City based union subcontractors, from increased business opportunities to member services such as legislative advocacy and government agency interaction. To become a member of STA means joining forces with over 350 of the most prominent players in the New York City construction industry and forming relationships to harness your business' true potential. By participating in STA's programs and committees, you can acquire valuable information and assistance to help your business thrive.

NEW YORK'S LEADING ASSOCIATION OF UNION SUBCONTRACTORS

Established in 1966, STA is comprised of over 350 members representing every field within the construction industry. STA focuses on problems affecting subcontractors in public and private construction, including progress payments, bid-shopping, improper back charges, legislation, prevailing wage enforcement, lien laws, insurance and bonding, among other issues. With the goal of increasing market share for its member subcontractors, STA provides the information, representation and support members require for success.

THE NEED FOR STA SERVICES AND REPRESENTATION

With new construction projects announced throughout New York State, the amount of work performed by subcontractors will continue to grow, as will the need for STA services and representation. STA represents its members with important City and State-wide boards, task forces and committees, such as the Mayor's Office of Contract Services, the School Construction Authority, the New York City Housing Authority, the New York City Department of Environmental Protection and the New York City Department of Design and Construction. STA also saves its members money by reducing workers compensation costs through the largest Safety Group in New York State. By joining STA, subcontractors can benefit from up front savings as high as 25%, along with additional year end dividends.

VALUABLE SERVICES TO HELP SUBCONTRACTORS DO BUSINESS

STA represents its members in working on issues of mutual concern with public agencies, authorities and private developers. STA's philosophy centers on dispute resolution without the need for litigation, and it has served its members well in this regard. In supporting the practical needs of its members, STA provides the following services:

- Industry Representation
- Safety Group
- Legislative Advocacy
- Business Practice Interchange
- Umbrella Actions
- Government Agency Interaction
- StayAlert Lien Reports
- Networking Opportunities
